Photoshop has more than 20 features for editing images, ranging from minor ones to major ones. Some of the most common tools are also among the most difficult for a beginner to master. The learning curve is steep and the program is quite complex for many people. If you're just beginning, you might want to start at the beginning, with Photoshop Elements, and build up from there. Getting a grip on image manipulation When you open Photoshop or Photoshop Elements, you see a workspace with many tools and panels. To start using Photoshop's tools, follow these steps: 1. Choose Tools⇒Quick Access Toolbar. The Quick Access toolbar appears, shown in Figure 7-1. (This toolbar appears only when you're using Photoshop, not Elements.) 2. Click the New tab. The Edit tab opens. 3. Click the Type tab. A menu drops from the top of the screen to the bottom of the screen. **Figure 7-1:** Choose the tab you want to see when you open a document. Photoshop's tools are located in several areas on the screen. After you open a document, you see the panel on the left of the workspace with tools, buttons, and selections, as shown in the bottom image in Figure 7-2. **Figure 7-2:** The panel on the left of the workspace contains all the major tools for image editing, such as brushes, shape tools, and the Crop tool. 4. Click the Format button, as shown in Figure 7-2. You see a menu of tools, and the tool you select opens in the workspace. Photoshop's Tools palette, shown in Figure 7-2, is a browser, so you can see your selections, create new selections, or choose one of the tools and have it open in the workspace. To create a new selection, click the tool you want to use in the palette. You don't need a mouse when you're using the tools in the palette. You can select a tool and then type to execute the command. You see the cursor change to a hand, for example, to create a selection or to paint or draw. Simply hold down your key and click to create the selection or paint or draw. President Obama will nominate a justice to fill the Supreme Court seat vacated by the late Antonin Scalia, clearing the way for his successor to strike a final deal on taxes, health care and other top issues. The designation, to be made public Wednesday, will bring to an end weeks of suspense surrounding an appointment that has alarmed conservatives, who warned that a liberal judge might strike down parts of landmark laws like the 2010 health care overhaul. ADVERTISEMENT The president said he is "now in the final stretch" of choosing a successor, but made no mention of who might get the call. The president's spokesman said he will nominate "a very talented and qualified judge, hopefully something that is not on anybody's short list." The White House will make clear that the president is leaving it up to the Senate to decide the fate of the conservative jurist. Democrats on Capitol Hill lauded the move, but Republicans said there is little to no reason to tip the scales for the next president. "It's important that the Senate have time to consider this selection and to ensure that this is someone who can provide our country with the great jurisprudence that it so clearly needs," said Senate Majority Leader Mitch McConnell Addison (Mitch) Mitchell McConnellOcasio-Cortez to voters: Tell McConnell 'he is playing with fire' with Ginsburg's seat McConnell locks down key GOP votes in Supreme Court fight Video shows NYC subway station renamed after Ruth Bader Ginsburg MORE (R-Ky.). "It's not clear that anybody is going to come to the fore that's suitable to fill the vacancy." The president's pick will likely be someone who fits the mold of previous nominees, one of whom, John Paul Stevens, was revered by both sides of the aisle. Stevens, who retired in 2010, was a traditional conservative, but he also was a respected moderate, particularly on racial matters. ADVERTISEMENT While the nomination hasn't been made yet, it is thought that Obama is considering liberal federal appeals court Judge Sonia Sotomayor, 67, of New York. A number of Republican senators praised the potential nomination, though some warned it may not address the biggest political issue facing the high court. Reince Priebus, the chairman of the Republican National Committee, called the choice "politically

A run of uninterrupted play in the face of three consecutive losses really does not a winning streak make, nor does it really mean much going forward. Yet the Giants are just 6-5, which is tied for the fourth-best record in the league. They have lost four games by six points or less and six of their losses have come by seven points or less, and yet, they are in first place in the NFC East. That winning streak has allowed the Giants to stay in the divisional race and all but assure themselves of a playoff berth. "We just need to stay even more consistent on both sides of the ball," receiver Odell Beckham Jr. said. "Just every week, we've got to get better and do what we do." The Giants may not hold the lead in the NFC East, but they do have the look of a team that could make a strong run for the conference crown. The defense is coming together. The offense is beginning to click. They have five games remaining with some of their rivals, including Dallas, Philadelphia and Washington. And so, on Sunday afternoon, facing the 4-9 Cowboys in Arlington, the Giants will look to push their winning streak to eight games. It has been a record-setting season for the Giants. Eli Manning has thrown for 49 touchdowns, the third-highest total in team history. This season has been remarkable as no one really expected the Giants to remain relevant this season after going 8-8 last year. But here they are, in the thick of it, with Beckham running all over the field and Odell Beckham Jr. making the big plays that have made the Giants' quarterback the most valuable player of the entire season. "We're a resilient group, we're a hardworking group, we're a group that wants to be here. I think guys are taking advantage of everything and everyone is feeling comfortable here. The chemistry is great," Eli Manning said. Manning was once again magnificent in a down year. Last week, he threw for a career-high five touchdowns in a 45-17 win over the Jets. He has thrown for 2,785 yards, 32 touchdowns and seven interceptions. The Giants have had their troubles. They have been gashed for 302 rushing yards per game, which has the NFL's worst rush defense.
